

The background of the entire page is a composite of three artistic images. The top right shows a person standing inside a large, white, geometric structure resembling a modern sculpture or a small house, set against a dramatic, cloudy sky. The bottom half of the page features a person in a dark, rocky landscape, reaching out towards a bright, glowing light source on the horizon, creating a silhouette effect. The top left corner has a dark, circular shape, possibly representing a celestial body.

IN ART WE TRUST!

Art can be universal and transcend cultures, points of view, traits and many other things. It can connect us with one another and it can make the world a lot better and a lot more meaningful for a lot of people out there.

That is the core basis of our project, **Far From Your Sun**.

We like to combine rock music compositions with the work of talented artists who come from the worlds of photography, painting, poetry ...

The expression **Far From Your Sun** is a reference to how human beings can live fulfilled and happy in the shadow of the artificial lights, far from the fads, far from a flattering, but often elusive, misleading sun.

This musical project is not an ego trip or something we do for personal glory, which is why the **Far From Your Sun** band is anonymous and studio-based.
